INTERNSHIP

Research shows that 85 percent of companies use internships and similar experiential education programs to recruit for their full-time workforces.

ABOUT THE COMPANY:

An entrepreneurial adventure that started in the year 2001, SSS is now an established organization driven by relentless innovators.

SSS, Software Services and Solutions, is a global IT services organization providing quality software consulting, software development, web designing and search engine optimization etc. We are focused towards providing world class software services and solutions to our clients over the globe. We offer our vast expertise in client server and internet consulting services to our customers in India and Abroad. We provide expertise in on-site and off-site software development methodology with our experienced and trained pool of software professionals.

Our alliance with global technology partners ensure that the latest in internet, telecom and e-commerce technologies are offered to our clients. Our clients in India are served through our office in India whereas our international clients are served through our office in Virginia. Our strategic alliances with global software leaders have further added to our armory of skills, making us a name to reckon with.

BENEFITS OF INTERNSHIP:

If you're on the fence about whether or not to pursue an internship during college, the statistics alone should convince you to do one. Employers overwhelmingly point to internship experience as the most important factor they consider in hiring new college graduates for full-time positions, and they have a variety of self-serving reasons for feeling that way.
